## CAREER OBJECTIVES

Junior UI/UX Designer with a Bachelor's degree in Computer Science and formal training in UI/UX design. Skilled in user research, user flows, personas, information architecture, wireframing, prototyping, usability testing, and UI design for mobile and web interfaces. Experienced in developing end-to-end design projects through academic and training work using Figma and related design tools. Focused on creating clear, usable, accessible, and user-centered digital experiences.

## SKILLS

**UI/UX Design:** User Research, Personas, User Flows, Information Architecture, Wireframing, Prototyping, Usability Testing, Mobile UI Design, Web UI Design, Responsive Design, Visual Hierarchy, Typography, Accessibility

**Tools:** Figma, FigJam, Miro, Notion, Maze

## PROJECTS

### Foodora — Food Delivery Mobile App | UI/UX Design Project | 2025

- Designed a food delivery mobile application covering the end-to-end ordering flow from onboarding and restaurant discovery to checkout.
- Created user flows, wireframes, high-fidelity UI screens, and interactive prototypes.
- Applied user-centered design principles, visual hierarchy, typography, and usability practices to improve the ordering experience.

### Careo — Medical Appointments & Clinic Reservations | UI/UX Design Project

- Designed a mobile application concept for booking medical appointments and clinic reservations.
- Created user flows, wireframes, and high-fidelity UI screens for key booking and account-management flows.
- Focused on usability, accessibility, and clear information architecture.

### Quiet Palette — Art Portfolio Landing Page | UI/UX Design Project

- Designed a responsive landing page concept for showcasing artwork.
- Applied visual hierarchy, typography, spacing, and color principles to organize content and guide users through the page.
- Created layouts for different screen sizes.

## EDUCATION

**Bachelor's Degree in Computer Science** — Thebes Academy | September 2021 – May 2025 | Grade: Excellent

## TRAINING & CERTIFICATIONS

### UI/UX Design Diploma — Route Academy | October 2025 – January 2026

- Studied the end-to-end UI/UX design process, including user research, personas, user flows, wireframing, prototyping, and usability testing.
- Worked on design projects simulating real-world UI/UX workflows.
- Designed mobile and web interfaces following usability and accessibility best practices.

### Technology Training Program — iCareer Digitera | September 2026 – October 2026

- Completed an intensive training program in the technology field, strengthening technical and professional skills.
